**Tatsuya Norii, MD, FACEP**

Novel coronavirus has been spreading around the world and influenza has been killing people at a terrifying speed. NM is facing its worst flu season in 10 years. NM DOH recently reported that there were 90 influenza-related deaths including two children this winter in NM. Most, if not all, of the members of NM ACEP have been fighting on the frontline in their respective EDs and I really appreciate all the work you do. [Read More.](#)

## FROM NATIONAL ACEP

### Articles of Interest in *Annals of Emergency Medicine* - Winter 2020

Sam Shahid, MBBS, MPH

#### Practice Management Manager, ACEP

ACEP would like to provide you with very brief synopses of the latest articles and articles coming soon to *Annals of Emergency Medicine*. Some of these have not appeared in print. These synopses are not meant to be thorough analyses of the articles, simply brief introductions. Before incorporating into your practice, you should read the entire articles and interpret them for your specific patient population. [View synopses here.](#)

**Need a Card That Says You Exceed the Need for a Merit Badge?**

ACEP believes that certification by ABEM or AOBEM supersedes the need for so-called “merit badge” short courses and opposes such requirements for board certified EPs. Many credentialing bodies, however, still require physicians to produce evidence of completion of the short courses. For members required to have such a card, [ACEP offers its members a set of personalized cards online](#).

### **NEMPAC has your back in the 2020 Elections**

2020 is an important election year. This is no time to sit on the sidelines! NEMPAC is working hard to ensure the concerns of emergency medicine and patients are front and center with candidates running for federal office. Your support this year will make our voice stronger to help elect emergency medicine supporters in Congress and identify and cultivate future champions. The NEMPAC Board of Trustees and staff have put together an informative presentation on NEMPAC’s role in the 2020 elections and how decisions are made to support candidates. ### **Update on ACEP’s APM Strategic Initiative**

ACEP has an exciting update on our Alternative Payment Model (APM) Strategic Initiative. As background, a couple years ago, ACEP created the Acute Unscheduled Care Model (AUCM), a Medicare APM specifically designed for emergency physicians. Currently, individual emergency physicians and emergency medicine groups do not have any opportunities to directly participate in “Advanced APMs.” Under Medicare, participation in an Advanced APM could result in a five percent payment bonus through 2024 and a higher payment fee schedule update starting in 2026. The AUCM has been endorsed by the Secretary of Health and Human Services (HHS), but not yet implemented by the Centers for Medicare & Medicaid Services (CMS).

As ACEP waits to see how CMS may implement the AUCM in Medicare, we are simultaneously pursuing model implementation by other payors, including Medicaid and private payors. More and more state Medicaid agencies and private payors are moving away from fee-for-service (FFS) contracts with physicians and other health care practitioners towards value-based payment arrangements, and the AUCM is an ideal APM construct for these payors to pursue for emergency medicine.

Through the APM Strategic Initiative, ACEP is continually providing information and resources to emergency medicine groups, state Medicaid agencies, private payors, and other stakeholders about how to structure and participate in emergency-medicine focused APMs that use the AUCM as a framework. We are happy to announce that we have updated our [APM Strategic Initiative website](#) with additional

resources that provide a more detailed overview of the AUCM and its potential for improving emergency care and reducing costs.

While these resources are mainly background materials for you to learn more about the AUCM, ACEP is in the process of developing targeted tool kits that you can use to engage in discussions with state Medicaid agencies and private payors on emergency-medicine focused APMs. Stay tuned for this next phase of the initiative.
